

The Advantages of Office.—The following letter might have been written by a young man in Arkansas to his mother in New Hampshire, and might not—wedo not endorse it. It seems that the young Yankee had lately received the appointment of post-master in that State, and that he presumes a good deal upon the strength of it.—*New Orleans Picayune.*

Wildcatville, Rattlesnake Co. Ark.
Dear Marm:—You haint the least idea in the world how I'm a gitting along out here in this Rattlesnake country. They've lately appointed me post-master in this town, and I'm expectin to get the office of justice of the peace afore long. I've had three cases left out to me already. One on 'em was where a feller had gouged out another chap's eye, and neither on 'em was sartin shure whether he was at the top or bottom when the thing was done. I knew all about it just as easy, 'cause I was watchin, all the time—so I decided the case accordin.

This is a great country! Why, marm, the corn here grows as high as witch hazels or cherry trees, and the cotton and other fruit beats all calculation.

I'm makin' my eternal fortin here just as fast as I can. I can do any thing a little smarter than any of 'em, 'cep'in playing cards, but I do think they rather go ahead of me at playin lu and poker, 'cause they always win my money.

You know them shirts you said you'd made for me and didn't know how to forrid on; you can send 'em by mail now, as I don't have any postage to pay in consequence of the virtue of my office. If the watermelons are ripe I wish you would send me two or three; also, them pair of nanken trousers I hadn't room for in my trunk when I started. You'll find a button off on one pair unless you've sowed it on since I left, and while you are about it you might as well let that gather in the bottom of 'em—I expect I've growed a little since I left home. Send 'em all by mail—they won't cost me the first red cent.

I've now been here nearly nine months and my health has been first rate nearly all the time. The only sickness I've had worth a mention has been the bilious fever twice, the congestive fever once, the fever and ager occasionally, and the dumb ager all the time.

Marm, I wish you give my luv to Ennice Homes, and ask her if she recollects that time we went to Hepsy Stearns's quiltin? If you see Zack Stearns tell him he may keep that knife I took away and forgot, as one blade was broke out and it aint of no great account.

I feel as tho' I had a shake a comin on, so I must stop writin. Dont forgit the shirts and trousers.

Your lovin son,
EREN PETTINGILL.

N. B. Apples is quite scarce out here. I would ask you to send on a barrel by post, only I'm afraid they'll lumber up the mail. You can send a peck any how.

THE TENNESSEE MOTHER.—Some few years ago a young man left his home in Tennessee with a horse drover, for the purpose of assisting in driving a lot of horses into the Georgia market. The Tennesseean, meeting with a sale for all his horses, and not wishing to retain one to carry the young man home, advised him to remain in Georgia, and seek employment as a laborer on one of our railroads, stating that it was a profitable business, by pursuing which he could not fail to make money.

Naturally a simpleton, the young man followed the advice of the individual who should have protected him, and who had enticed him from his home, and sought employment on the Monroe road. Here he was most unfortunately thrown into bad company and was induced to forge an order, amounting to about forty dollars, on a store for goods. The forgery discovered, he was indicted, tried, convicted, and sentenced to the penitentiary for five years.

His mother, an old lady of sixty years, residing 450 miles from Millidgeville, hearing of the unfortunate condition in which her son was placed, and knowing the imbecility of his mind, with all a mother's affection, determined to proceed at once to this place, and to make his true situation known to the proper authorities. But alas! how was a poor and lonely woman, without money or friends of her own, to get to Millidgeville? With a resolution truly heroic, this old lady determined to travel on foot the whole distance, and, accompanied by a sister ten years younger than herself, she actually started, and over mountain, stream and valley, she walked the extraordinary distance of four hundred and fifty miles, to petition the Governor to pardon her unfortunate son.

An investigation of the case induced the Governor to extend to the unfortunate youth a remission of his sentence, and we had the melancholy pleasure of seeing the old lady and her sister, together with the son, wending their way back to their home in Tennessee. What will not a mother's affections accomplish? The drover who enticed him from home, and left him to suffer in a land of strangers, knowing his imbecility, should supply his place in the penitentiary.

A Monster.—A tremendous rattlesnake found near Huntsville, Ala. is thus described in the Democrat: Length, 11 feet nine inches; circumference in the largest part of the body 19 inches; 9 1-5 inches around the head; 3 inches around the first rattle; 2 around the last; length of the whole series of rattles, three feet eight inches; number of rattles, 83; length of the two poisonous fangs, two and three fourth inches; weight thirty seven and a half pounds; and yielding nearly five quarts of oil.

Nothing like *Morus Multicaulis*.—A Georgia paper says that the leaves of the morus multicaulis make good greens, excellent provender for cattle, and first rate hyson tea! Besides all this, they are said to make grand draughts for the feet, noble Spanish segars, and in Pennsylvania, we understand, the Dutch women make them into pies!

Lazy Club.—They have a "Lazy Club" in Buffalo. A member was expelled the other day for running down hill; and another for talking with a person in the street without leaning against a post.

ODONTICA! ODONTICA!

THE TEETH! THE TEETH!

DR. M. HITCHCOCK'S Magnetic Odontica. The facts are proved, and the most incredulous and doubting are fully convinced, as we have the evidence from the sale of more than 7000 boxes within the past year, that the Utopian dreams of the alchemist are realized, and a remedy discovered for preserving those important and beautiful appendages of the human system, by the use of the Magnetic Odontica, which, by its attractive, purifying, and strengthening qualities removes all extraneous substances from the teeth and preserves them in their natural brilliancy, and the gums in soundness and beauty. It is ascertained from experience, that when used, the teeth will not decay, but remain till the latest old age, with their natural wear. When they are decaying, its progress will be arrested, and the teeth preserved and prevented from aching. Ladies and gentlemen of the most respectable character are daily calling, who assure us that before they commenced using the Odontica, their teeth were loose and fast going to decay, their gums spongy and feverish, and the breath fetid, and after using this invaluable powder, in less than one week their teeth were firm in their sockets, their gums resumed their health, their breath corrected, and no money could induce them to be without it. All this costs the small sum of fifty cents.

For sale by DUTTON, CLARK & CO., only Agents in Brattleboro for the sole proprietors A. Hitchcock & Co, Utica, N.Y. Brattleboro, July, 1839.

WORM TEA.

DR. M. HITCHCOCK'S unrivalled and unequalled WORM TEA, a sovereign remedy for worms. Strange and incredible are the effects of these detestable vermin; few persons, and it is thought none, are free from them, particularly females and children. Many persons go through a distressing course of medicine without any benefit, when they might be relieved by using the worm tea. This invaluable medicine has been tested by the experience of more than four thousand persons of various ages, and not one solitary complaint; on the contrary, hundreds have called and unsolicited given their decided preference to it, after trying the different articles sent forth to the public, and pronounced Dr. M. Hitchcock's Worm Tea unrivalled and unequalled.

For sale by DUTTON, CLARK & CO., only Agents in Brattleboro, for the sole proprietors A. Hitchcock & Co, Utica, N.Y. Brattleboro, July, 1839.

DENTISTRY.

DR. SPALDING continues to perform all operations in the line of DENTAL SURGERY, and warrants them to be done in a neat and durable manner, upon the best scientific principles of the art. Grateful for past favors he solicits a continuance of the same.

Charges much lower than the ordinary charge of Dentists.

Office Room one door south of the Store of Dutton, Clark & Co.

Brattleboro, Nov. 20, 1839.

21

DR. M. HITCHCOCK'S

Newly invented SNUFF,

For the cure and absolute relief of catarrh, head-aches, fallen-sickness, fits, and infants troubled with the snuffles, partial shocks of palsy, &c. Only 25 cents.

For sale by DUTTON, CLARK & CO., only Agents in Brattleboro, for the sole proprietors A. Hitchcock & Co, Utica, N.Y.

BRATTLEBORO BOTANIC INFIRMARY.

PRO BONO PUBLICO.

DR. OLIVER WRIGHT,

would respectfully give notice to the inhabitants of Brattleboro and vicinity, that he has purchased a large and commodious house, and fitted up an Infirmary on Canal Street near the Methodist Church, where he will be happy to accommodate invalids, who may be pleased to favor him with their patronage, in a manner agreeable to their most pleasurable desires; regarding, always, the laws of health. His experience for seven years—arduous labor in practice with the sick of every variety of disease, assures him of his abilities to perform all that medicine, skillfully applied, can perform. Not boasting above knowledge on the strength of mystery, he would say that his mode of operating is purely upon the scientific principles discovered by Dr. SAMUEL THOMSON.

Vegetables purely, exclusively, and of known efficacy are the only medicines used; and those, too, which are not possessed of any deleterious properties. He has a large assortment of Medicines prepared by himself, in the best order, for the necessities of all cases.

Dr. Wright would further notice to the public that he will perform all practice by ride which is usually performed by physicians—Luxations and fractures will be scientifically treated on the principles of the new practice.

Ladies in parturition will be attended promptly. His experience in this branch of practice has been very extensive, and among the many cases which he has attended, not one has been unsuccessful in relation to anything desirable to Mother or child. Mrs. WRIGHT will attend with the Dr., if requested.

Vapour, and medicated vapour baths can be had at all times, as an agent in restoring health, or a luxury and promoter of cleanliness and health to those who are well.

Price, for regular operations, by course of medicine and bathing, \$2. Bath's only 50 cents.

Board at the Infirmary on reasonable terms.

O. WRIGHT, Physician.

Brattleboro, April 18, 1839.

Wrought scrap Iron, of good quality, purchased in any quantity, by R. R. & Co. Hartford, April 24, 1839.

The Resurrection or Persian PILLS.

SUPERIOR to the Hygean, Brandreth, or any other pills before the public, as certified to by physicians and others who had used them. The name of this medicine originated from the circumstance of its being found only in the cemeteries of Persia. The extract of this wonderful production has been used in many parts of Europe with the most astonishing control over a great variety of diseases, since the year 1783. Early in the year 1791 it was combined with a certain vegetable medicine imported from Dura Baga in the East Indies and formed into pills.

The admirable effect of this compound upon the human system, led physicians and families into its general use. The operation of these pills is as singular as their origin, and is different from any other compound used in the Materia Medica. The Persian Pills cleanse the stomach and bowels from all impurities, and restores the secretory organs when torpid or morbidly affected, to a speedy and vigorous state of health. They also enter the circulation and purify the blood better than any medicine known; and from their detergent properties they expel all vitiated fluids and humors with the greatest certainty from the whole system. Such is a brief outline of the operation of these pills. Without specifying the multitude of diseases in which they have been used with the most unparalleled success, they may be said to be a sovereign remedy—whose virtue needs only to be known by the public in order to secure their general use.

A large half sheet printed upon both sides accompanies each box, giving the history of the medicine and a great variety of certificates from those who have been cured by the use of these pills after all other medicines had failed to afford them relief. For sale in whole or half boxes, by DUTTON, CLARK & CO. Brattleboro, July, 1839.

Important to Females.

Reynolds & Parnely's Celebrated Female Health Restorative.

THIS Medicine has effected cures in many cases where Physicians had given them over and the Saratoga Waters had proved ineffectual. It invariably removes obstructions, regulating in most cases of painful, too frequent, or profuse menstruation, & has cured the most obstinate cases of Fluor Albus. All this is effected by strengthening the system, and inducing a healthy action—it does not operate as a cathartic. It is recommended by many of the most eminent physicians in the United States. Doct. J. Morrison, formerly of Colorado, Mass. who has practised medicine some 30 years in Ovid, N.Y. says in relation to it, "That it is the best medicine I have used in the worst cases with admirable success, and I wish for the good of suffering females, that all physicians would introduce it in their practice, and I have confidence to believe they would find happy results, as I have found the Pills to answer fully their recommendation." Doct. R. R. Davis of Syracuse, N.Y. will tell you a similar story, and many others that we might name. It has been tried by so many hundreds with such universal success, that the reputation of it stands unrivalled and unequalled, where it is known. For further information, you are referred to the persons whose names are annexed to our show-bills, and also to pamphlets left with our agents for gratuitous distribution. Price—Two Dollars per box, containing nearly 100 pills. Prepared and sold wholesale and retail, by Reynolds & Parnely, Pittsford, Monroe Co. N.Y. Sold by WILLISTON & TYLER, Brattleboro, July 1839.

For Albany, Troy, and WESTERN COUNTRY.

Via BRATTLEBORO and BENNINGTON.

LEAVES Chase's every morning (Sundays excepted) at 3 o'clock, arrive at Troy and Albany every evening, where the great Western Canal, Steam-boat, for New York, Railroad for Ballston and Saratoga Springs, Stages, Packets, &c.

Passengers arriving at Troy or Albany, can procure passage for the West at almost any hour of the day, either by Stages, Packets or Railroad.

This line also, leaves Baker and Watkinson Stage office, Albany and Troy, for Bennington and Brattleboro, daily, Sundays excepted.

An accommodation Stage will leave Albany for Bennington every morning at 10 o'clock, on the arrival of the Boat from New York, and Railroad from the West. Passengers going East, who arrive at Albany in the morning and take the Stage for Bennington, will not be subjected to riding in the night.

At Brattleboro this line intersects with four different stage routes to Boston, and two for Lowell; also, Stage for Concord and all parts of New Hampshire, and the Connecticut River line of Stages for Walpole, Bellows Falls, Charlestown, Hanover, and Haverhill. Passengers can go from Albany through to any of the above towns in two days.

N. Bridge & Sons, WILL run a BAGGAGE WAGON from Brattleboro to Troy, once a week, leaving Brattleboro, on Mondays, at 10 o'clock, and will take freight to Troy for 62 1-2 cents per hundred.

Families from the vicinity of Brattleboro going West, can have their effects carried to Troy, and there stored or freighted as directed. Apply to the Agent at Chase's Hotel, Brattleboro, or Griffith & Co. 149 River street, 2 doors below Congress, Troy, N.Y.

Freight to any amount directed to the care of N. BAKER & SONS, Brattleboro, will be forwarded without delay.

March 22, 1839.

Morocco.

APRIME lot of Morocco and Kid Skins, just received from New York, for sale, by WILLISTON & TYLER.

THIS wonderful Medicine has been introduced to the public but a short time, yet its fame has spread rapidly throughout the United States. The proprietor is constantly receiving orders from every part of the Union. The old Hygean Theory, that impurity of the blood is the cause of all diseases, has become stale, while the Theory of Dr. Kingley, who contends that the most frequent cause of disease, is a derangement in the functions of the Liver is rapidly gaining ground.

The proprietor has received a great number of communications from individuals who have been cured; among which are the following.

I hereby certify, that in the Spring of 1836, I was attacked with what my Physician called the Influenza, attended with great inflammation of the Lungs and Throat, and a difficulty of breathing. I took the prescriptions of my family Physician, and obtained some relief, but the difficulty of breathing still remained, and I suffered severely, I could not lie down and was obliged to take what little sleep I could get sitting up in a chair. I continued in this way for about six months, when the complaint suddenly became more violent and alarming, the inflammation extended to my head and so affected my brain that I was deprived of my reason, and for three weeks was a complete maniac. I was attended by two eminent Physicians who did all they could for me, but said that I could not live; however recovered my reason, and the violence of the disease abated in a measure, but the difficulty of breathing still remained. I had not been able to lie down for about nine months, when one of my friends who called in to see me advised me to try some of Dr. Kingley's Pills, he said he had taken them and they had given him great relief; I sent and procured a box and they gave me immediate relief; before I had taken half of them I could lie down and sleep comfortably which was indeed a great blessing. They produced a wonderful change in my system, and have completely restored me to health. I had also suffered much in consequence of inflammation in my right eye the passage which conveys the tears to the nostril, had become stopped, which is a very troublesome complaint. Soon after I began to take these Pills, I was entirely relieved from this affliction. I have recommended them to many persons who have all been benefited. I do not hesitate to pronounce them the best medicine that I have ever been acquainted with, and one that can be safely taken for any complaint.

JESSE STEARNS. Boston, Oct. 1, 1837.

A lady in Coventry, Vt., has been cured of a complaint of four years standing, (which had baffled the skill of many able Physicians) by a course of this simple medicine.

A Gentleman from Methuen, Mass., called on the Agents, in this city, and stated that his wife who had been an invalid for three years was now restored to health by the use of Dr. Kingley's Pills.

These Pills are put up in neat boxes of two sizes the small sizes contain 25 pills, and the retail price is 25 cents; the large size contains 60 pills, the price is 50 cents.

These are the sole Agents in the United States, where the genuine Pills can be had at all times. Also, of Jacob Hunt, Winchendon, Mass.; G. C. Noble, Fitzwilliam, N. H.; B. Nourse, Troy, N. H.; B. B. Murdoch, Northfield, Mass.; Wm. Haile, Hinsdale, N. H.; A. Perry, Bernardston, Mass.; T. O. Sparhawk, Greenfield, Mass.; and DUTTON, CLARK & CO. Brattleboro, April, 1839.

50 BBLs. Flour, just received, and a regular supply receiving, for sale at lowest prices by single bbl. or quantity, by HALL & TOWNSLEY. July 25.

MOFFAT'S LIFE MEDICINES.—RE-ANIMATION.

When the most important functions of life are suspended, and those who are invalid by inheritance or imprudence are reduced to a deplorable state of nervous debility, they should not even then despair, for it is not in despair that relief can be found. No. Let them first look around, and, laying aside all prejudices, ask themselves this question—"If my physician cannot help me, is his reputed skill my only resort?"

Perhaps at that moment the heading of this advertisement, "Moffat's Life Medicines," would catch the eye, and were they in truth divided of foolish prejudices, they might perhaps, be induced to inquire whether Mr. Moffat's theory and treatment of diseases differed from that of their own physicians. They would then learn that it did differ, and very widely, and with most happy results, too.

If they pursued their inquiries still further, they would find that all practicing physicians of the present day prescribe MERCURY, in some form, for almost every disease, and they would learn, too, that mercurial medicines, though they give present relief, undermine the constitution, and always leave the patient in a precarious state of health.

A GOOD VEGETABLE MEDICINE is just the reverse of all this. For hundreds of years before that scourge of mankind, "Mercury," was employed in the healing art, Physicians used nothing but herbs. Even the Bible recommends as the "skillful physician" he who prepares his medicines from herbs. Witness Ecclesiasticus, chap. xxiii.

"The skillful physician shall lift up his head; and in the sight of the great men he shall be in admiration."

"Moffat's Vegetable Life Medicines" possess qualities of the most mild and beneficial nature. They are composed of articles the most antiputrescent, combined with ingredients known as the only certain antidote for fevers of every description.

When the disease is produced either from cold, obstruction, bad air, swampy and camp situations, or putrid miasmata, these medicines are certain in their operation or effects. They are possessed of peculiar qualities which not only expel all disease but at the same time restore and invigorate the system. When first taken into the stomach, they immediately diffuse themselves like vapor through every pore, producing effects at once delightful, salutary and permanent. When the spark of life begins to grow dim, the circulation languid, and the faculties paralyzed, these medicines are found to give a tone to the nerves, exhilarate the animal spirits, invigorate the body, and re-animate the whole man.

THE LIFE MEDICINES have also been used with the most happy success in Nervous and Dyspeptic diseases, Consumption, Asthma, Liver Complaint, Rheumatism, (chronic and inflammatory) Dropsies, &c. &c.

The following letters are lately selected from a very large number which Mr. Moffat has lately received from different parts of the United States.

Mr. Moffat—Dear Sir: It is with sincere pleasure that I venture to address you, to thank you for the benefit I have received from your medicines. My complaint was salt rheum, for which I have tried nearly all the medicines which were advertised in the newspapers. I, however received no relief from any of them. Since I was shown your Good Samaritan, which induced me to try your medicine. When I applied to you, my legs and arms were so bad that they looked like raw beef, and were covered with scabs; but after taking a 25 cent box of your pills, the dead skin began to scale off, and so continued until I was entirely cured. It is now four months since I was cured, and I have had no return of the complaint. I have recommended your medicine to several persons, and advise all afflicted with the salt rheum to try it. Respectfully, your ob't. servant, M. CLEOVER.

13th st., between 5th and Jackson avenues.

Lawrence, N. Y., May 23.

Mr. Moffat—Dear Sir: I was troubled with the piles for several years. I applied to the most eminent Physician without relief. A friend of mine, Mr. Clarke, who had received great relief from them, recommended me to use your Life Pills. Though I was suffering very severely with them at the time, I experienced relief in 48 hours, and in a few weeks was not troubled with them at all and I have been free from distress ever since and have great pleasure in recommending them to those afflicted in a similar manner. Respectfully, J. E. STEARNS.

Summit Hill, Jan. 18, 1838.

Dr. Moffat—Dear Sir: I have great pleasure in addressing you, having been troubled for some time back with the rheumatism, and could find nothing to give me any relief, until I had commenced taking your Vegetable Life Pills and Phoenix Bitters. In taking the first bottle and one box of pills I found the most excruciating pain that I had long been troubled with, entirely disappeared. Such being the case, it is with gratitude I offer these sentiments, feeling confident that I am indebted to you more than words can express, for your valuable medicine and the speedy cure received from its good effects. Yours, &c. GEO. ROBERTS.

Lockport, Nov. 27, 1837.

Mr. W. B. Moffat—Dear Sir: As a remarkable instance of the virtue and efficacy of your Life Pills and Phoenix Bitters, in restoring lost health to the afflicted, has occurred in my family, I deem it a duty I owe both to yourself and the public, to make the fact known, that others suffering under similar circumstances might perchance see this and obtain a remedy in season to preserve them from a premature grave. My wife has been afflicted with the liver complaint and general debility for upwards of 3 years; and for the last 3 months she has not been able to walk across the room. After trying various medicines prescribed by different physicians, which gave her no relief, she was given up as incurable. In this situation she was gradually failing, when I happened to call upon your agent in this village, and he gave me a copy of the Good Samaritan, the perusing of which induced me to try your medicine, although I had but little hope of her receiving any benefit from it. The effect was surprising. Before she had taken one bottle of bitters and one box of pills, she was so far recovered as to be able to accomplish most of her household work without assistance.

Yours, respectfully, WARREN PATTERSON.

For additional particulars of the above medicine see Moffat's Good Samaritan, a copy of which accompanies the medicine; copy can also be obtained on application at the drug store of D., C. & Co.

The above medicine is for sale, by DUTTON, CLARK & Co. Brattleboro, March 14, 1839.
